Re: 7th Street Parking restrictions

The temporary parking restrictions on 7th Street west of Appleton Rd have expired and the decision will have to be made to make it permanent or let it lapse.

We have found that it has helped us to supervise the area near Hart Park. Since the bulk of the activity in this park is heaviest in the warmer months, it is my recommendation that we compromise in this area and restrict parking from April 01 to November 01.

I would hope that the council can take action prior to April 01 so permanent signs may be posted.
